Good teaching

Good environment

Supportive staff

Needs new furniture in clg otherwise clg us good

Digital learning should be there.

Focus should be skill development

Communication between teacher's and students

Teachers to give students opportunity to review their internal exam sheets so as to have the chance to improve themselves for the final exams .

Teachers to inform students beforehand if class is to be cancelled or if the teacher is busy and to take the class even if a single student is present.

Besides there's not a single issue with the knowledge and delivery of content of our teachers and every class exceeds our level of satisfaction several times.

Student teacher interaction

*Paper work should be reduced for teachers

*College Management should provide technical resources to professors.

*Time to Time motivating programs for students.

From my perspective, this institution and its teachers are putting really great efforts into making a positive and progressive environment for the students. However, there's always room for improvement. Students are experiencing minor inconveniences due to the old infrastructure of the college. The college is slightly lagging in automation too. But other than this I have never experienced any problems in the curriculum .

Good
Excellent

Practical study
Excellent

(1).Collage overall infrastructure needs to be improved.
(2)smart classes should be there in order to give practical knowledge.
(3) inhancement of girl power classes..like judo , karate and should be given the opportunity to take equal participation in the further competitions through collage.

Excellent

(1)Dress code.must must must....be changed ...as many girls face " a lot" of problems during their menstrual cycle....so that's I guess...another genuine reason which should be considered.
(2)enhancement of sports activities inside the collage premises.
(3) one more reason...I would like to add....is the food that we get in our canteen is sometimes really unhygienic and...there should be a mid day meal provided by the collage authorities...though everything seems unprofessional in our collage buy I think the authorities must focus on these 3 important points.

Excellent

Verry well

Teachers are doing very good as always.
Lcd projectors uses during lectures will be very affective.
